Fortune

A Tale of "The Half-Way Poor"

by Albert Payson Terhune

A REALISTIC novel of New York life with a background of newspaper patter amid the strata of society which most of us know but which no one before has really expressed in a book.

It is a story without a word of war in it. How Eve and Brant go down into the valley together and how the metal of each is tried in the fire of adversity, is told with a strength of realism, yet with a delicacy of touch, that makes Mr. Terhune's work stand forth with large promise.

Four black and white illustrations by W. Clinton Pettee. Bound in deep blue cloth. *Net, $1.40*

History of the World War

Volume III—"1916 On All Battle Fronts"

by Frank H. Simonds

THE third of the five volumes of this great work to appear.

This volume tells of the Battle of Verdun, the British Expedition into Mesopotamia, the Austrian assault upon Italy, the Russian offensive in Galicia, the heroic but unsuccessful campaign of Rumania, the Battle of the Somme, the sea operations up to and including the great naval battle off Jutland, and the German Peace Proposals with their attendant propaganda.

Illustrated with many photographs and maps. Bound in light blue cloth

A Daughter of the Land

A Story of American Grit

by Gene Stratton-Porter

Author of "Freckles," "A Girl of the Limberlost," "The Harvester," etc.

THE past two years have but added to the native charm of Mrs. Porter's pen a new and vitally interesting sincerity of purpose. Her latest novel is as stimulating in its traditional appeal as any of her previous books, yet far surpasses them in genuine inspiration.

Kate Bates, a true "Daughter of the Land," is as American as the Goddess of Liberty. She fought for her freedom against long odds, renouncing the easy path of luxury that leads to loss of self respect. She learned her great lesson as America is now learning it —that only through sacrifice and sorrow is character builded and happiness attained.

The whole book is in tune with the earnest mood of the times. It is essentially patriotic in spirit, and emphasizes the tremendous importance to the nation of the lives of those who till the soil.

Josselyn's Wife

The Story of a Woman's Faith

by Kathleen Norris

Author of "The Story of Julia Page," "Martie the Unconquered," etc.

MRS. NORRIS'S latest novel tells the story of sweet, simple Ellen Latimer, transported by a whirlwind marriage to Gibbs Josselyn from the humdrum existence of a small country town to the luxuries of the wealthy social life of New York.

There is a time when the young second wife of Gibbs Josselyn's father threatens to break up their happy married life, for Gibbs succumbs readily to her undeniable fascination. Then comes the crash. Through the long agonies of a murder trial it is the wife he has neglected who alone upholds him. It is her faith that wins out and brings him at last to an understanding of his egotistical folly.

Colored frontispiece by C. Allan Gilbert. *Bound in bright red cloth*

Home Canning, Drying, and Preserving

A Food Conservation Manual

by A. Louise Andrea

Teacher and Lecturer on Home Economics

THIS book is a clear, concise, and thoroughly practical presentation of every stage of the various processes of preserving food, and is based on a mass of scientifically tested data and many useful hints from thousands of experimentors, collected during the author's many years of lecturing and teaching.

Each operation is described in such detail that any one trying for the first time to preserve garden products will be able to proceed from A to Z without mishap.

Besides the canning of all fruits and vegetables, Mrs. Andrea takes up canning in honey (a new subject), canning fish, meat, and poultry, pickling, salting, and drying.

Scouting With General Pershing

by Everett T. Tomlinson

Author of "Scouting with General Funston"

TO AMERICAN boys General Pershing is an appealing national character. His courage, his determination and zeal, present forcefully all the requisites for success in every walk of life.

The great qualities of leadership possessed by the commander of our American Expeditionary Forces in France are well brought out in this story of two boys who accompany his punitive expedition into Mexico. It is a story about facts that every American boy knows or wants to know.

Tales From Birdland

by T. Gilbert Pearson

Secretary, National Association of Audubon Societies

MR. PEARSON, who is a well-known authority on the subject, and knows how to tell a story in a way to captivate children and grown-ups as well, has written a delightful little book about our bird friends.

The human element is added in Billy Strong, old Pete Wagstaff and many other interesting characters, while the dashes of humor are frequent and unusual.

Charles Livingston Bull has contributed some of his best illustrations in color, and in black and white.

Ambassador Morgenthau's Story

German Intrigue in the Near East

by Henry Morgenthau

Formerly U. S. Ambassador to Turkey

IN THIS book Mr. Morgenthau tells for the first time:

How Germany forced Turkey into the war.

How the German Ambassador confessed that the Potsdam conference of July 5, 1914, precipitated the war.

How the Anglo-French forces abandoned the Dardanelles campaign just as Constantinople had arranged to yield.

Why Germany is to blame for the Armenian massacres.

Mr. Morgenthau gives character studies, reminiscenses and documents connected with his striking experiences in Turkey which will make this book a valuable original source of historic information for the student as well as an astounding revelation of German methods to the American public.

The Magnificent Ambersons

A Novel of American Life

by Booth Tarkington

Author of "The Turmoil," "Penrod," etc.

THIS is a novel of the life of an American family, and of the life of an American city in its big, growing time. It is a novel of the change that has come upon all of us Americans in our own lifetime—a change which has come in such a fashion that we are surprised by our own familiar recognition of it when we find it made into literature in the pages of this story.

Every reader will find that he knows the Magnificent Ambersons and has seen in life what happened to them. In fact, he may live next door to them! He may be just such a young man as George Amberson Minafer, whose snobbish family pride threatens to ruin him. But to how many readers has it been given to see the love of such an unusual girl as Lucy Morgan persist through everything and at last break down the rock-bound pride that is driving the last representative of the Ambersons, magnificent no longer, to disaster?

The Black Watch

"A Record in Action"

by Scout Joe Cassells

Formerly of the Black Watch Regiment

SCOUT CASSELLS is one of the very few survivors of that "contemptible little army" that fought from Mons to the Marne—the bloodiest trail of sacrifice in history. With no hope for victory, it could only clog the wheels of the Juggernaut with lives sold bravely and dearly. Before a countless superiority of numbers it could only stand and fall, and stand and fall again, until the cause of the Allies was saved for the hour. This book is the thrilling story of that fight—the record in action of the historic Black Watch Regiment, which, as a part of the British regular army, held the day for civilization.

Bound in dark blue cloth. *Net, $1.25*

Gentlemen at Arms

Tales of the British Army and Navy

by "Centurion"

THE name "Centurion" is well-known to English readers as that of a soldier-author who has produced real literature in his stories of the fighting man at work. The incidents told in this book are of actual events in France, Belgium and England and on the stormy waters of the North Sea.

Writing with a deft, sure touch, the author gives in bold, unforgetable outlines, vivid pictures of the men who are saving civilization. In the twenty-one tales there is laughter as well as tears, high courage and cheerful patience.

Bound in dull red cloth *Net, $1.25*

Mam'selle Jo

A Novel of the St. Lawrence Country

by Harriet T. Comstock

Author of "Joyce of the North Woods," etc.

SELF-SACRIFICE is the spirit of this moving story. The happiness that comes to those who give is the lot of Mam'selle Jo, who wins her way by hard and bitter experience through a slough of debts to financial independence. The child which she adopts is especially dear to her because of the indefinable suggestion of the father, whom Mam'selle had loved in her own youth.

As the child grows to fair womanhood she too, comes face to face with the necessity of sacrifice. Unhesitatingly she gives up a career for the sake of her foster mother—and finds a great love as her reward.

Colour in My Garden

A Complete Manual

by Louise Beebe Wilder

THIS is one of the best garden books that has been written. Mrs. Wilder is one of the few artist-writers in the country. She has, besides, rare taste and a practical working knowledge of plants which put her in the foremost rank of garden writers of this or any other country. Heretofore we have had to draw our inspiration from foreign books, chiefly English. Mrs. Wilder's writing has all their inspirational quality and it applies to our climatic requirements. The extraordinary beautiful paintings are not merely delightful pictures, but very useful ones.

These paintings are of Mrs. Wilder's own garden and show the procession of colour during a single season.

Dream Boats

Portraits and Histories of Fauns, Fairies and Fishes

Written and Illustrated
by Dugald Stewart Walker

WHEN the beautiful edition of "Andersen's Fairy Tales" illustrated by Dugald Stewart Walker was published a few years ago, one of the most talked of features in connection with the book were the artist's own notes upon the pictures.

As time went on these notes gradually expanded into that whimsical delightful fairy-love which is so bound up in his work, and he found himself telling the stories to ever-increasing audiences of friends, of children, and finally of all the people in the world who delight in periodically renewing their childhood.

These stories have now been collected in "Dream Boats" and are illustrated by the author's own incomparable pictures.

Illustrated with black and white and color drawings by the author.

The Valley of the Giants

A Romance of the Redwoods

by Peter B. Kyne

Author of "Webster—Man's Man"

THIS is the story of the big, wholesome men and women who hewed the pathway of civilization through the trackless depths of the Northern California redwood forests. It is a story of life and love in the open that is invigorating in its very freshness.

Bryce Cardigan's struggles to keep his Valley of the Giants, the treacherous schemes of the Michigan lumber magnate to smash his rival and the part played by a sweet, true-spirited girl in helping Bryce win out, make a tale to keep adventure-loving hearts throbbing fast.

An Appeal to Youth

by Dr. Frank Crane

IN THE preface this American publicist says:

"I have lived an average life. I have had the same kind of follies, fears, and fires my twenty-one year old reader has. I have failed often and bitterly. I have loved and hated, lost and won, done some good deeds and many bad ones. I have had some measure of success, and I have made about every kind of mistake there is to make. In other words I have lived a full, active, human life. I am now on the shady side of fifty. If I were twenty-one again, this is what I would do."

The Best Short Stories

A Personal Collection

by Tom Masson

THE length of a humorous story is no indication of its quality, according to Mr. Masson. Frequently the best are the shortest. Consequently the majority of the stories in this little volume are short, and what is more to the point, amusing.

In the many years during which "Tom" Masson has been Managing Editor of *Life* he has read many thousands of funny stories without losing his enthusiasm for a good one. These are the best of the last two years' gleanings.

Everyman's Land

by A. M. and C. N. Williamson

Authors of "The Lightning Conductor," "My Friend, the Chauffeur," etc.

THE scenes of this adventure are laid in war-torn France from the Marne to the Somme amid the devastation caused by the Hun. Spurred on by the necessity of getting aid for her war-blinded brother, an impulsive Irish girl poses as the fiancée of a young American aviator who has been reported killed in action. With his wealthy, grief-stricken parents, she visits the wounded French cities, showing how they may help in the work of reconstruction and bringing cheer to the distressed inhabitants—until the young aviator makes his escape from a German prison camp and confronts her!

The Love Letters of Anne Gilchrist and Walt Whitman

Edited by Thomas B. Harned

A COPY of "Leaves of Grass" first aroused Anne Gilchrist's interest in the "poet of democracy," and caused her to begin a life-long correspondence with him that ranged over many subjects of mutual interest.

These letters have a delightful literary quality, and show an inspiring, unselfish affection. Aside from their interest to lovers of the "good, gray poet" the letters are very much worth while on their own account.

Fighting Germany's Spies

A Revelation of German Intrigues in America

by French Strother

Managing Editor of "The World's Work"

THE work of German spies in America since the war began has had more far-reaching effects than most of us realize. Started by Von Bernstorff and his aides as a means of spreading Teuton propaganda over the country, it soon became a network of intrigue affecting our whole national life, breaking out into stark terrorism at times. These are the stories of some of the most astounding attempts to blow up industrial plants, wreck railroad bridges, sink our ships, and murder our citizens.

The Easiest Way

Volume XXII—Drama League Series of Plays

by Eugene Walter

AN AMERICAN play recognized as one of the notable contributions of the modern playwright to the naturalistic drama. So discriminating a critic as Walter Prichard Eaton says of it:

"The drama has entered upon a new era of respectability, and is once more held in high regard by men of letters. Mr. Galsworthy's 'Strife' is no less important as literature than his 'Patrician'; Eugene Walter's 'The Easiest Way' is no less genuine a document than the stories of Mrs. Deland."

Our Cities Awake

by Morris Llewellyn Cooke

Formerly Director of Public Works, City of Philadelphia

IN this book on municipal administration the problems of civil government are linked up with the problems of big business for the first time.

Mr. Cooke's business is that of a consulting engineer, specializing in works management. He has applied the same standards to his public work that large corporations have found necessary to produce efficient results. The reader will find this book not only a stimulant to the further development of enlightened municipal government, but also a very practical treatise on the efficient handling of men.

German Plans for the Next War

by J. B. W. Gardiner

Military Critic of The New York *Times* and "The World's Work"

MR. GARDINER presents indisputable proof that Germany, convinced that she cannot attain her aims completely in this war, is even at the present moment planning a war of world-conquest for the next generation.

His explanations throw a new light on the German aims in seizing the coal and iron lands of France and Belgium, the granaries of Russia, the oil fields of Rumania and Anatolia; her thefts of materials and money from conquered territories; her enslavement of enemy non-combatants; and the means she has taken to increase her population in illegitimate ways.

The Crack in the Bell

A Tale of Love and Politics

by Peter Clark Macfarlane

Author of "Held to Answer," etc.

EQUALLY well-known as a writer of fiction and of stirring magazine articles of investigation, Peter Clark Macfarlane has in this book written a story that combines the strong fictional appeal of his novel "Held to Answer" and the political knowledge gained through years of investigation of civic and national affairs.

A story of love and politics in a big American city this is at the same time a drama of universal human interest. It throws a great light on the problem of providing efficient economical administration for our municipalities.

ILLUSTRATED PANTOMIMES

MY COUNTRY, 'TIS OF THEE. **50 cents.** A pantomime for 1 female, by ANNA D. COOPER, illustrating by a succession of emotional and patriotic poses, the progress of the American Anthem, while it is read, or sung with musical accompaniment. It consists of over 25 graceful and effective changes of gesture, 10 of which are photographed from life, the poser being draped in the American flag. It occupies about 8 minutes and is specially adapted for schools, churches and patriotic societies.

HARK, HARK, MY SOUL. **50 cents.** A beautiful rendering of the hymn in pantomime for 1 female, by ANNA D. COOPER. The sentiments of the hymn are illustrated by a lady in a continuous change of gestures, 10 of which are portrayed by photographs taken from life, while the verses are sung by a solo singer and chorus concealed from the audience. It requires about 6 or 7 minutes for performance and is strikingly effective.

GYPSY'S WARNING, The. **50 cents.** A pantomime for 1 male and 2 female performers, arranged and posed by ANNA D. COOPER. The actions of the posers are illustrative of the text of the song as sung with piano accompaniment behind the scene. An old Gypsy discovers a Cavalier ardently wooing a maiden. The Gypsy recognizes him as the one who has wooed and deserted her own daughter, and warns the maiden of his perfidy. The climax, when the maiden at last convinced recoils in horror from the Cavalier, is powerfully dramatic. It is illustrated with six tableaux photographed from life, and occupies 8 to 10 minutes.

MISS HULDAH'S OFFER. **50 cents.** A pantomime for 1 female, arranged by ANNA D. COOPER. Fully described and illustrated by 6 photographs from life. *Miss Huldah*, a sentimental maiden of 40, receives an offer of marriage in a letter which is read behind the scenes. (The text may also be recited as a monologue in action.) The manner in which the offer affects her is faithfully and humorously portrayed by her actions and demeanor. The struggle between jubilant satisfaction and maidenly modesty at the offer, almost past her hoping for, is very funny. The action covers about 8 minutes.

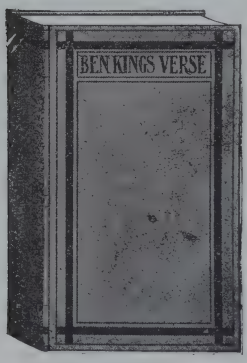
BEN KING'S VERSE

This book has had a larger sale than any book of humorous verse in recent years. Ben King's work is unique in American literature. His humor and pathos alike are different from that of any other author.



If I Should Die Tonight

If I should die tonight
And you should come to my cold corpse and say,
Weeping and heartsick o'er my lifeless clay—
If I should die tonight
And you should come in deepest grief and woe
And say, "Here's that ten dollars that I owe"—
I might arise in my large white cravat
And say, "What's that?"

If I should die tonight
And you should come to my cold corpse and kneel,
Clasping my bier to show the grief you feel—
I say, if I should die tonight
And you should come to me, and there and then
Just even hint 'bout payin' me that ten,
I might arise the while;
But I'd drop dead again.

We are propagandists rather than commercialists, and as propagandists we address this prefatory statement to particular groups of men as follows :

(*a*) **To those having a general interest in education,** we recommend *Bill's School and Mine* as well worth reading, and re-reading.

(*b*) **To those specially concerned with scientific and technical education,** we recommend the philosophy and the biting humor that is scattered throughout the *Calendar of Leading Experiments*.

(*c*) **To teachers of physics and to teachers of electrical engeneering.** The earlier books on these subjects are widely known, but *General Physics* (1916) and *Elements of Electrical Engineering* Vol. I. (1917) represent wide departures from the earlier books, and they are, we believe, great improvements thereon from a teaching point of view.

(*d*) **To teachers of mathematics** we earnestly recommend a careful examination of our *Elements of Calculus*. This book *does not* side-step the rigors of mathematics. It represents a point of view which is meeting with increase of approval, and more than approval, among those who are broadly and vitally concerned with the mathematical sciences.

(*e*) **To teachers in trade schools and night schools** we recommend *Elementary Statics* (No. 8) and *Elementary Electricity and Magnetism* (No. 9).

(*f*) **To students of the non-mathematical sciences.** Franklin, MacNutt and Charles take pride in the fact that what they stand for is quoted in William James' book on *Pragmatism* as an extreme example of pragmatic philosophy. The references which are brought together on page 8 of this circular constitute a very simple and highly pragmatic treatise on the philosophy of the mathematical sciences.

☞ **Any book in this list will be sent post paid on approval, to be returned post paid if not satisfactory.**

GENERAL PHYSICS

(1916)

BY

WM. S. FRANKLIN AND BARRY MACNUTT.

A TREATISE ON NATURAL PHILOSOPHY

Published and for sale by McGraw-Hill Book Company

Price $2.75 post paid

A Key to Problems is supplied with teacher's desk copies of this book

This textbook, with its brevity and clearness, its directness of treatment and its freedom from tedious repetition of the commonplaces of High School Physics, was intended to do away with the usual excessive amount of classroom coaching which is the despair of every physics teacher who aims to develop the power of analytical thinking and who tries therefore to hold his students accountable for mathematical ideas, mathematical formulations (not mathematical formulas, please note) and numerical calculations. And the use of the book in the classroom seems to show that it does in some measure accomplish what was intended. The students do read it, it tends to focus their attention on fundamentals, it helps to an unprecedented extent (in the authors' experience) to form precise ideas, and it enables the student to devour numerical problems.

A CALENDAR OF LEADING EXPERIMENTS

(1918)

BY

WM. S. FRANKLIN AND BARRY MACNUTT

Published and for sale by

FRANKLIN, MacNUTT AND CHARLES

South Bethlehem, Pa.

Price $2.50 post paid

This book has to do primarily with lecture demonstrations in physics. The authors believe that High School Physics would be greatly helped by the use of more class-room demonstrations, they believe that such demonstrations can be provided for at a very small expense, and they consider that many of the demonstrations described in this book would be usable in the High School. The book has an Appendix on A Visitors' Laboratory of Physics, and certainly our State Colleges and High Schools could do a great work by developing this phase of the museum idea.

Secondarily this book sets forth the possibilities of an extended course in elementary dynamics, including the dynamics of wave motion; and from beginning to end the book is filled with semi-humorous reflections on the problems of the teacher of physics.

AN ELEMENTARY TREATISE ON CALCULUS

(1913)

BY

FRANKLIN, MacNUTT AND CHARLES

Published by the authors. Price $2.00 post paid

Nearly everyone who has examined this book has been favorably impressed by its mathematical quality and by its simplicity and clearness. It does not side-step mathematical precision and rigor, and yet the textual discussion is vividly intelligible so that the student can reasonably be expected to understand the subject without the usual excessive amount of class-room coaching. It contains more than enough carefully graded problem and exercise work to keep the average student busy for a year.

"It will teach many a mathematician many a useful thing if only the mathematicians will take heed unto it." Professor E. B. Wilson, Massachusetts Institute of Technology.

"It seems to me that you have succeeded in making a book that will cause enthusiasm rather than discouragement in the student." A professor of mathematics.

These essays are so compact and so forcible that the *Independent* called the book "A Package of Dynamite," and the reviewer in *The Elementary School Journal* (University of Chicago) says "Impossible to read these essays lying down."

From *Nature* (London), May 10, 1917. "This new edition of Professor Franklin's brightly written essays, with their advocacy of education in the 'Land of Out-of-Doors' and of the claims of sensible science to a prominent place in school curricula, is enriched by a new essay on Education after the War."

"These brief papers are written in an entertaining style that is gripping and interesting. . . . There is much that is good and much that is of value in a careful study of this purposeful little volume." *School and Science Review.*

"Yesterday I read every word of your book—how splendid it is! Two things I wish, yea three, I desire—

First, that every American should read your book.

Second, that I had had your experiences.

Third, that I could have gone to school to you in Mathematics and Science,

You are right in your Science-teaching ideas—absolutely right! But we both agree that teaching is great fun, what?

Yours

Many biologists and many purely experimental chemists would like to have a clear insight into the methods of the mathematical sciences; but every science is now presented as for the narrow specialist, or for the dilettante, and the student must choose everything in a particular field, or nothing. An exclusive interest in a particular science seems to be the only interest that is recognized as serious.

The following references bring together a simple and highly pragmatic treatise on

THE PHILOSOPHY OF THE MATHEMATICAL SCIENCES

and with the help of this simple treatise, which it is hoped some time to publish separately, any mature student can get a clear understanding of the methods of the mathematical sciences with a very moderate expenditure of time and effort.

The infinitesimal calculus. See pages 593–597 of book No. 1 for a discussion of the meaning of the infinitesimal calculus, and see chapter one of book No. 3 (40 pages) for a precise and clearly intelligible survey of differential and integral calculus. This chapter is presented in carefully revised form in the Supplement which accompanies the book.

Methods in physics. The four fundamental methods in physics are (*a*) The method of mechanics, (*b*) The method of thermodynamics, (*c*) The method of atomics (the atomic theory), and (*d*) The method of statistics.

The philosophy of elementary mechanics is discussed at some length in book No. 2. See pages 119–123 of book No. 1 for a discussion of the atomic theory in contrast with thermodynamics; see pages 322–325 of book No. 1 for a discussion of the method of mechanics as contrasted with the method of atomics and see a very simple and suggestive discussion of the use of the statistical method in physics in *Science*, pages 158–162, August 4, 1916.

The conservation of energy and the law of entropy. Any scientific work, to be fruitful, must be to some extent conditioned by the great generalizations of physics; but these generalizations need to be tempered, in their wide acceptance, by a full appreciation of the fact that they are very largely of postulate content. The great value of precise ideas (mathematical ideas) is that they open the mind for the perception of the simplest evidences of a subject, and mathematical thinking is a necessity *in the mathematical sciences;* but any kind of an idea unconditionally held closes the mind completely to contrary evidences. This matter is discussed somewhat naïvely on pages 75–90 and 99–101 of book No. 4.

The law of entropy is, perhaps, rigorously true for a world in which no organizing agencies are at work coördinating things which are apart in time and apart in space, but living forms seem to be subject to the law of entropy only in that the easiest line of delevopment of an organism which must use free energy is the line of development in which an excessive burden of coördination is not necessary at the beginning.

The conservation of energy is discussed on pages 60–70 and 119–125 of book No. 1.

The law of entropy (the second law of thermadynamics) is discussed on pages 153–168 of book No. 1.

COBERN, CAMDEN M., D.D., Litt.D.

The New Archeological Discoveries, and Their Bearing upon the New Testament and upon the Life and Times of the Primitive Church. With Introduction by Edouard Naville, D.C.L., LL.D. While filled with material that will be of intense interest to scholars and Bible students, this illuminating work is written in a style so popular as to make a strong appeal to every book-lover. Not only does it throw strong light on the text and style of the New Testament; it also presents a most interesting picture, drawn from the original sources, of the life, social and religious customs, art, literature, family relations, etc., of the early Christian centuries, that will make the people of New Testament times as real to us as our associates and friends of to-day. The book has many illustrations, is popular in form, yet loses nothing of scientific value by simplicity of presentation. Second edition, revised, within six months of publication. Large 8vo, 732 pp. $3.00.

The first section of the book, dealing with the modern discoveries of papyri, presents some hundred large pages of great fascination. Also of great interest is the second chapter on the new light from papyri upon the language of the New Testament. . . . But this is only Part I. In Part II are studied the monuments, inscriptions and other remains with respect to their bearing on the life and times of the primitive church. The material comes mainly from Palestine, Pompeii, the Roman Catacombs, Phrygia and Syria. The excavations at the famous cities mentioned in the New Testament are treated in a special section, and finally the author considers new documentary and other evidence throwing light upon the early Christian centuries. This last section treats of classical texts in the light of new discoveries, non-Biblical Jewish literature which influenced theological and ethical thought of Palestine in the first century and the intellectual, social and religious life as seen in the papyri.—*The Evening Sun, New York.*

"I have known for some time that Dr. Cobern was planning this book, and I rejoice that it has been successfully completed. . . . Although I have been quite familiar with the material of the book, I have found much in it that is new."—*Dr. Adolph Deissmann,* great German Archæological Authority.

"This is a book that was much wanted to focus together the varied material, especially papyri, that bore on early Christianity. . . . Everyone not already a specialist in these studies will be much indebted to Dr. Cobern."—*W. M. Flinders Petrie,* in *Ancient Egypt.*

"It is truly a marvelous book. It gives in simple and unprofessional language the results of vast and varied learning. It is as fascinating as a novel and as instructive as are few accessible books."—*R. S. MacArthur, D.D.,* President Baptist World Alliance, New York City.

"You have made us all your debtors by bringing into the compass of one volume the results of so many scattered discoveries and researches. I can appreciate as perhaps few can the labor that it has cost you. I shall make much use of the book myself and take pleasure in recommending it to others. I am particularly glad that you included in the scope of the book the life and times of the primitive church.—*George A. Barton, Ph.D., LL.D.,* Professor of Biblical Literature and Semitic Languages, Bryn Mawr College.

"An extremely useful collection and discussion of material of great importance for the study of the New Testament; material which is not elsewhere brought together and is far too often overlooked."—*Charles C. Torrey, Ph.D., D.D.,* Professor of Semitic Languages, Yale University.

*HEXAGLOT BIBLE, THE

Comprising the Holy Scriptures of the Old and New Testaments in the original tongues. The work presents the Scriptures of the Old Testament in six languages, the Hebrew, Greek, Latin, English, German, and French, and the New Testament in Greek, Syriac, Latin, English, German, and French. The texts are conveniently arranged in six parallel columns, three columns on each of two opposite pages. Edited by the Rev. Edward Riches De Levante, M.A., Ph.D. Assisted by competent Biblical scholars. The prominent feature is the analytical character of each reference. The Bible student can, at a glance, find out four distinct points: (a) What the original Hebrew or Greek of any word is; (b) its literal meaning; (c) a correct and trustworthy exegesis, and (d) what are really parallel passages. Six volumes, quarto, Cloth, $40.00; Sheep, $60.00; half Morocco, $80.00.

The texts are those of the highest authorities. The Hebrew is that of Van der Hooght, carefully revised. The Greek in the old Testament is Dr. Tischendorf's latest edition, with gaps supplied in brackets, from various sources, and in the New Testament, Dr. Tischendorf's eighth edition similarly supplemented. The Latin of the Old Testament is the Clementine edition of the Vulgate, and in the New Testament, Dr. Tischendorf's edition of the Codex Amiatinus, with gaps supplied in brackets, from the Clementine edition. The Syriac (in the New Testament only) is based on the noted "Biblia Sacra Polyglotta." The English is the Authorized Version; the German, Martin Luther's translation, and the French is the translation by David Martin with revisions.

It is not only a sumptuous book for a library, but is also a book of comparative versions which will be of incalculable convenience and value. . . . Each version has been committed to a scholar specially qualified for editing it, and the whole has been produced in a style of printing which places the work at the head of the Biblical texts of this country.—*British Quarterly Review.*

JENKS, PROF. J. W., PH.D., LL.D., and LAUCK, PROF. W. JETT

The Immigration Problem. A Study of American Immigration—Conditions and Needs. Dr. Jenks, now Research Professor of Government and Public Administration in New York University, was an active member of the United States Immigration Commission, appointed in 1907, and Prof. Lauck, now Director of the Bureau of Applied Economics, at Washington, was officially connected therewith during the Commission's four years of searching work. Based upon the extended Report of that Commission, in forty-two volumes, this book's Fourth Edition has been revised and enlarged, with addition of all available data in the text; the new Immigration Law, enacted February 5, 1917, has been added to the appendices; and an important chapter upon that law has been prepared by Mr. W. W. Husband, Secretary of the Commission. It is thus brought down to date as the standard compact authority on Immigration, in accordance with latest official figures and facts, holding place absolutely abreast with conditions affecting our nation's present and future. Cloth, 8vo, pp. 605. $1.75.

It is likely to become the standard work on the subject until the problem is solved.—*The New Age, London.*

"So thoroughly revised and enlarged that it is virtually a new and original work."—*The North American, Philadelphia.*

"Altogether the work stands by itself as a complete and up-to-date compendium upon this important question."—*The Living Age, Boston, Massachusetts.*

"This book will continue to hold its position as the authoritative digest of the reports of the Immigration Commission, and as such will serve a widely useful purpose."—*The Evening Post, New York.*

". . . That most reliable and exhaustive of all books dealing with the new immigration . . . has just appeared in a new and enlarged edition. The work is a thorough digest of the report in forty-two volumes of the United States Immigration Commission."—*Tribune, New York.*

"The book is the most exhaustive study of the immigration problem in compact form that we have, and the fact that the authors gave four years' study to the problem on the Immigration Commission puts them in a position to produce a standard authoritative work."—*The Transcript, Boston, Mass.*

We have here the most solid basis of reasoning on this great subject that we have ever had. The authors seem to have tried, and successfully, to furnish materials to persons of all views and parties for an independent judgment.—*Prof. Charles R. Henderson, Ph.D., D.D., Department of Sociology and Anthropology, University of Chicago.*

An admirable summary of the facts brought forth by the researches of the Immigration Commission and the conclusions and suggestions of the authors are at once comprehensive, cautious, sound. The book is one that every student of the issues of public policy in America must become familiar with.—*Prof. F. H. Giddings, Department of Social Science, Columbia University.*

The subject is covered from every angle. Among the subdivisions treated are the causes of immigration —religious, political, economic, etc.; characteristics of immigrants which affect American Institutions; social problems of recent immigration; manufacturing and mining communities; recent immigrants in agriculture; immigrant institutions; living conditions and congestion; the status of immigrants in industries; the floating immigrant labor supply; the immigrant as a dynamic force in industry; European, Mexican, and Oriental immigration; agencies of protection, distribution, and assimilation; legislation and administration, and remedies. The tendency of the work favors the restriction of immigration more for industrial reasons than for any other."—*Chamber of Commerce Bulletin, Portland, Oregon.*

Complete Guide to Public Speaking. The only extensive, comprehensive, encyclopedic work of its kind ever issued, with its varied and inclusive contents alphabetically arranged by topics, and made immediately accessible by a Complete Index. The best advice by the world's great authorities upon oratory, preaching, platform and pulpit delivery, voice building and management, etc., etc., Royal 8vo, Cloth, over 650 pp. $5.00.

Fifteen Thousand Useful Phrases. Collected and classified, in a practical handbook of pertinent expressions, striking similes, etc., to improve the vocabularies of all who read, write, and speak English. 12mo, Cloth. $1.60.

Great Speeches and How to Make Them. Mr. Kleiser, in this work, aims to set forth, not only the sources of the power exercised by famous masters of oratory, but to point out methods by which young men may acquire and develop the art. His long experience as a teacher, and his own gifts as a speaker, not to mention his exhaustive studies of the lives and speeches of great authors, have fitted him for the preparation of a work that should make strong appeal. 12mo, Cloth. $1.50.

How to Argue and Win. The author gives different suggestions for training the mind to accuracy of thought and in the power of clear and effective statements. His method is thoroughly practical, being, in fact, the result of his experience in teaching men how to "think on their feet." 12mo, Cloth. $1.50.

How to Develop Self-Confidence in Speech and Manner. By means of a prescribed plan the author believes students "may systematically develop a high type of manly self-confidence." He sets forth a series of suggestions for thirty-one days to be followed in the cultivation of qualities that make for power. 12mo, Cloth. $1.50.

How to Read and Declaim. Mr. Kleiser aims, in this work, to present a course of instruction in reading and declamation, with his prime object the cultivation of taste and refinement. He maintains that the foundation of all good speaking lies in naturalness and simplicity. Few technical terms are employed in Mr. Kleiser's teaching—the fewest possible. Instead of using an arbitrary system, he resorts to what may be called the suggestive method, believing that distinctly better results can be achieved. The book presents two courses of study—first, preparatory; second, advanced. Then are given selections for use in practice. These have been chosen from standard authors and comprise both poetry and prose. 12mo, Cloth. $1.50.

How to Speak in Public. A complete elocutionary manual for students, teachers, business men, lawyers, clergymen, politicians, clubs, debating societies, and, in fact, every one interested in the art of public speaking. LODGE, HENRY CABOT, LL.D. (and others)

The Best of the World's Classics (Restricted to Prose). Henry Cabot Lodge, Editor-in-Chief; Francis W. Halsey, Associate Editor. As Senator Lodge sets forth in his Introduction, this work represents "an attempt to give, from all periods and languages of Western civilization, examples of what is best and most memorable in their prose literature." In this endeavor, personal preferences have been suppressed and general principles followed on broad and enduring lines. The term "classics" has been used, not in a narrow or technical sense, but rather in the sense of Thoreau, who defined them as "the noblest recorded thoughts of mankind." Examples, therefore, have been taken from great writings which have moved and influenced thought; from writers historically important, and from works representative of the various literatures of the world, including specimens from the masters of En lish prose. Senator Lodge's Introduction is an essay, notable in itself, comprising, as it does, twenty-five pages of the work. 10 volumes, illustrated with frontispieces. Bound in Cloth, Half Leather, and Full Leather. Sold only by subscription.

Library Edition (Edition de Luxe). Ten volumes, bound in three-quarters Leather, gilt tops, gold lettering, extra wide margins, large type, over 100 choice illustrations, text paper extra heavy. 8vo, in a box. $25.00.

MENTAL EFFICIENCY SERIES

Ten Volumes of uniform 16mo size, made up in the most careful manner from the writings of Aristotle, Socrates, Darwin, Spencer, William James, Muensterberg, Jastrow, Schofield, and other accepted authorities on mental science practically applied. MODERN SERMONS BY WORLD SCHOLARS

Ten volumes of over seventy sermons, Edited by Robert Scott and W. C. Stiles, with introduction by Newell Dwight Hillis, D.D. Each sermon, given entire, was selected (oftentimes by the preacher himself) as most representative of the authors' style and force. In every instance, where the author was living, an approval of the selection was sought and obtained, so that the ten volumes are fairly representative of the modern pulpit as characterized by these world scholars. The topics embraced are of timely interest and furnish excellent reading for the layman, as well as for the clergyman. The following are a few of the many scholars whose best pulpit efforts are included in the ten volumes:

Lyman Abbott, Walter F. Adeny, Willis J. Beecher, Llewelyn D. Bevan, Hugh Black, Borden P. Bowne, James Denny, Canon S. R. Driver, James Drummond, A. M. Fairbairn, W. H. P. Faunce, George A. FEATURES OF THE WORK AND ARRANGEMENT OF THE VOLUMES

In the ordinary sense of the term the "People's Bible," is not a Biblical Commentary. The scope is broader. It is a work not only for the minister and student, but for the people. It is not intended to take the place of verbal or critical commentaries. It is not a series of sermons. There are no sermons, as such, in the entire work. The volumes are arranged as follows: 1. Genesis; 2. Exodus; 3. Leviticus–Numbers, xxv.; 4. Numbers, xxvi.–Deuteronomy; 5. Joshua–Judges, v.; 6. Judges, vi.–I. Samuel, xvii.; 7. I. Samuel, xviii.–I. Kings, xiii.; 8. I. Kings, xv.–I. Chronicles, ix.; 9. I. Chronicles, x.–II. Chronicles, xx.; xxi.; 10. II. Chronicles, x.–Esther; 11. Job; 12. The Psalms; 13. Proverbs; 14. Ecclesiastes–Isaiah, xxvi.; 15. Isaiah, xvii.–Jeremiah, xix.; 16. Jeremiah, xx.–Daniel; 17. Hosea–Malachi; 18, 19, 20. Matthew; 21. Mark–Luke; 22. John; 23, 24, 25. The Acts; 26. Romans–Corinthians–Galatians; 27. Ephesians–Revelation; 28. Index volume to the entire work.

***†The Pulpit Bible.** The entire text of the Bible is printed in large, clear type, with bright and suggestive illustrations in an ample margin opposite each significant verse. The author's notes alone run to over 750,000 words. The notes are all original and they indicate the special pulpit use of each verse (where available) in the Bible. Each note is thus a suggestion for a sermon. Where space has not permitted a sufficient treatment of any passage, a copious and most carefully detailed index indicates in which of Dr. Parker's other books the particular interpretation is provided. 4to, Full Morocco, 1,351 pp., one vol. $15.00.

***†Studies in Texts.** Six volumes containing new sermons, outlines, suggestions, etc., designed to be of value to preachers, Bible students, teachers, and other active religious workers, and useful for home and family readings. 6 vols., 12mo, Cloth. $1.50 per vol.

With copious indexes to each volume and an index volume to the entire series. Among the contributors are: Rev. J. S. Exell, M.A.; Rev. W. Burrows, B.A.; Thomas Robinson, D.D.; Rev. J. W. Harris; Rev. D. G. Watt, M.A.; Rev. Geo. Barlow; Rev. Robert Tuck; Thomas Whitelaw, D.D.; Rev. Henry J. Foster, etc.

***Preacher's Complete Homiletic Commentary on the Old Testament.** By twenty distinguished homilists. 8vo, Cloth, over 12,000 pp., 20 vols. (and index volume), complete, $60.00; per vol., $3.00.

***Preacher's Complete Homiletic Commentary on the New Testament.** Uniform size and style with the Homiletic Commentary on the Old Testament. Cloth, 10 vols. (and index volume), 6,000 pp., $30.00; per vol., $3.00.

FEATURES OF THE CONTENTS

IT BRINGS TO THE PREACHER'S ATTENTION hundreds of texts heretofore almost wholly passed over by the pulpit. Spurgeon, in his *Commenting and Commentaries,* says: "We have next to nothing on Kings." In the Homiletic Commentary we have on Kings alone 743 treatments of texts. The same is true of other books, as Jeremiah. New expositions, critical notes, illustrations, etc., are poured in upon neglected texts, and additional light thrown upon old texts.

IT IS THE ONLY COMMENTARY that supplies a sermonic treatment of homiletic suggestion on every verse of both the Old and New Testaments that can be used to advantage as a sermon text.

IT CONCENTRATES THE LIGHT of all ages and of all countries on the text.

IT IS WHOLLY FREE FROM DENOMINATIONAL BIAS, being strictly evangelical.

PREACHER'S COMPLETE HOMILETIC COMMENTARY—Continued

IT SUGGESTS THOUSANDS OF THEMES AND ILLUSTRATIONS for sermons, also many hundreds of useful illustrations.

IT THROWS NEW LIGHT upon the present controversies over the Old Testament.

THE COMMENTARY IS WHOLLY IN ENGLISH, avoiding Hebrew and Greek, except here and there in the critical notes.

THE INDEXES are useful and practical.

Crown 8vo, Cloth. $1.50.

Discussion of the three primary divisions of the subject—Positive Eugenics, or the encouragement of worthy parenthood; Negative Eugenics, or the discouragement of unworthy parenthood; and Preventive Eugenics, or a study of racial poisons—constitutes a study of this subject which should be read by every parent and public-spirited person in the country, to say nothing of its relation to the whole religious and social problem.—*Christian Standard, Cincinnati.*

SCHAFF-HERZOG ENCYCLOPEDIA OF RELIGIOUS KNOWLEDGE, THE NEW

Embracing Biblical, Historical, Doctrinal, and Practical Theology, and Biblical, Theological, and Ecclesiastical Biography from the Earliest times to the Present day. Based on the celebrated German Hauck-Herzog Realencyklopädie für Protestantische Theologie und Kirche. Prepared by more than six hundred scholars and specialists under the supervision of Samuel Macauley Jackson, D.D., LL.D., Editor-in-Chief, Associate Editor with Dr. Philip Schaff, of the First Edition, Professor of Church History in New York University, with the assistance of Charles Colebrook Sherman, Managing Editor, and George William Gilmore, M.A., Bibliographical Editor, and the following Department Editors: James Frederick McCurdy, Ph.D., LL.D., University College, Toronto; Clarence Augustine Beckwith, D.D., Chicago Theological Seminary; Henry King Carroll, LL.D., Corresponding Secretary Methodist Missionary So-

ciety; Henry Sylvester Nash, D.D., Cambridge Theological School; Albert Henry Newman, D.D., LL.D., Baylor University, Texas; John Thomas Creagh, D.D., Catholic University of America, Washington; James Francis Driscoll, D.D., St. Joseph's Seminary. Complete in twelve 8vo volumes, aggregating about six thousand pages and an Extended Index, forming a Supplementary 8vo Volume of 211 pages, compiled with great care, by Prof. George William Gilmore, Associate Editor of the work, to make available, with the least possible expenditure of time to the reader, all its rich treasures of knowledge. In this Index, vocabulary titles are printed in Small Capitals; and all entries are intended to register passages where actual information is given upon the topic suggested. It is notably a working Index, which the student will appreciate for its frequent convenience and its great practical value. Price of the 13 volumes in Cloth, $64; in Half Morocco, $102; in Full Morocco, $128. Separate volumes sold in cloth only, $5.

It contains the best and latest information, put together in a catholic spirit, free from rash theorizing and immature conclusions.—*Prof. A. H. Sayce, D.D., LL.D., Oxford University.*

Its extent, variety, and accuracy of information are notable. Its digest of facts and its tabular statistics make it indispensable for reference. It is discreet and fair in its handling of controverted topics. It is abundant and also well comprest. So scholarly an array is rare.—*M. Woolsey Stryker, D.D., LL.D., Pres. Hamilton College, Clinton, N. Y.*

In its original form this work has been familiar to students for many years. In this edition the original articles have been reconstructed and brought up to date by distinguished American theologians, under the able editorship of Dr. Jackson. Two features are specially worthy of note: The insertion of hundreds of biographies of men of the present generation on the same pages as those of ancient and Scripture history, so that Adam, Aaron, Augustine and Dr. Allon are brought into close contiguity; and the remarkable and extensive bibliography attached to the articles. The latter is probably the most useful feature of the present edition, and could hardly be excelled. The scope is so wide as to necessitate very drastic compression in some directions, in order to bring the Encyclopedia within the twelve volumes to which it is limited. The old and the new views are stated side by side.—*Rev. F. B. Meyer.*

***SERMON BIBLE, THE**

A sermon library, containing 4,800 sermon outlines with more than 24,000 homiletical references and embracing the whole of the Sacred Scriptures. It gives the essence of the very best homiletic literature of the present generation, and it is a source of inexhaustible help to the preacher, student, or other Christian worker.

The supreme value of The Sermon Bible lies in its fertility of suggestiveness. Many a preacher or speaker grows weary at times of "seeking for suggestive hints." He wanders over acres of miscellaneous writing and can hunt up nothing pertinent. The process is an exhausting preliminary to the making of a discourse. It will be entirely obviated by judicious resort to the volumes of The Sermon Bible. Upon thousands of text-topics the desired aid will be instantly discovered, and the mind will be set going in the right direction, with an initial impetus toward original thought.

In 12 volumes. 12mo, Cloth. $1.50 per volume; $18.00 per set.

FEATURES OF THE CONTENTS

The plan of the work, in general, gives under each text, each being in its consecutive order from Genesis to Revelation: (1) Outline of important sermons by eminent preachers which exist only in manuscript or periodicals, and are thus inaccessible; or, (2) less full outlines of sermons which have appeared in volumes that are not well known or easily obtained; or, (3) reference to or very brief outlines of sermons which appear in popular volumes such as are likely to be in a preacher's library; and (4) full references to theological treatises, commentaries, etc., where any help is given to the elucidation of the text. Thus the preacher, having chosen his text, has only to refer to the Sermon Bible to find some of the best outlines and suggestions on it and very helpful references to all the aids available. Blank pages are bound in the end of each volume for manuscript notes.

A compact and practical compendium.—*Independent, New York.*

This thoroughly up-to-date and remarkably compact dictionary is admirably adapted for general use where an unabridged dictionary is too unwieldy for practicability.—*The Press, Philadelphia.*

Very convenient. The inclusion of proper names and abbreviations in one alphabetical order with the other words is a convenience in a dictionary of this size.—*The Sun, New York.*

As in the New Unabridged Standard, the words in this work are arranged in one alphabetical order. Proper names, abbreviations, prefixes, suffixes, etc., will all be found in their proper alphabetical sequence in the vocabulary. The Comprehensive Standard is a model book for ordinary desk purposes and for the pupil's book-bag.—*The World, New York.*

*STANDARD DICTIONARY, THE CONCISE

Abridged from the Funk & Wagnalls New Standard Dictionary. This compact volume aims to provide an ideal concise dictionary for school or handy desk use. It gives the orthography, pronunciation, and meaning of about 35,000 words, with 800 pictorial illustrations. James C. Fernald, L.H.D., editor. 12mo, 589 pp. Cloth, 60 cents; Limp Morocco, $1.25. Indexed, 25 cents additional.

DISTINGUISHING FEATURES

All the essential features of the New Standard Dictionary have been included in this work except the etymologies, which are necessarily omitted. Wherever possible the Standard's system of giving a definitive statement has been employed. Special care has been taken to put all definitions and statements in the simplest and clearest language possible consistent with accuracy. The appendix includes: faulty diction; rules for spelling; proper names; glossary of foreign words, phrases, etc., current in English literature; symbolic flowers and gems; abbreviations and contractions, etc.

The man who compressed the big Standard into this small volume had a job on his hands of which he acquitted himself with a good deal of credit. Placed within reach of the writer's hand, where it belongs, and where it will always be found, it saves some trotting to the larger field and often serves as good a purpose.—*Herald, Rochester, N. Y.*

The attractive thing about Mr. Vaile's book is that he treats tennis as a problem of brains. The game, of which he writes with profound knowledge, is very largely one of strokes. He has presented a method for the proper playing of each stroke. Of strokes, volleys, lobs, drives and chops and their compounds it is noteworthy that he separately describes a full dozen; and many of these have modifications. The service, which he also classes as a stroke, has almost as many varieties as all the rest put together.—*Evening Sun, New York City.*

Know What the World Is Doing!

Two hours spent weekly in reading *The Literary Digest* will afford you definite, reliable information on every important happening all over the world. *The Digest* is CLEAN. Sensational, useless, "slushy" news is omitted, but every event of importance is covered.

All sides of the world's news without our views is the unique policy of *The Literary Digest.* The editors do not write *their* views, but they quote from and reflect the opinions of the leading publications of the world on both sides of every question.

The World's Greatest Magazine of Clean, Valuable, Reliable News

The Literary Digest

PUBLISHED WEEKLY

MEN and women who read *The Literary Digest* take an intelligent and authoritative part in any conversation, anywhere. It gives you all sides and shades of opinion concerning every happening of moment in the realms of Science, Politics, Sport, Art, Literature, Religion, Education, Industry, etc. Profusely illustrated.

Good reading begets good thinking. You get just such reading on every essential topic of the day in *The Literary Digest.*

It's INTERESTING and at the same time it's VALUABLE reading matter.

The late Senator Benjamin R. Tillman: "It is invaluable to the busy man."

Hudson Maxim, Inventor Smokeless Powder, etc.: "The most indispensable periodical published to-day."

Thos. A. Edison, Orange, N. J.: "I believe that at the present time *The Literary Digest* prints the most valuable and interesting matter of any publication of similar character that I know of."

Hon. William Jennings Bryan, Ex-Sec'y, of State: "It is unique among the weeklies, combining in one magazine scores of others, and thus has become indispensable to the busy man who would know what is taking place in the world around him."

Judge Oliver Wendell Holmes, United States Supreme Court: "It supplies a want felt alike by professional and lay readers."

Francis E. Clark, President Christian Endeavor Union: "It winnows the multiplicity of newspapers and tells us the most important things which they contain."

Brand Whitlock, American Minister to Belgium: "I have taken *The Literary Digest* for a great many years, and I should not like to be without it. I think it is invaluable to one who wishes to know what is going on in the world, and it gives, I think, with quite as much of the impersonal feeling as is possible to human beings, both sides of every question."

THE HOMILETIC REVIEW

AN INTERNATIONAL, undenominational magazine of religion, theology, science, and philosophy. Every phase of the minister's work is treated constructively. Issued monthly.

The Homiletic Review contains discussion and information on all the important topics and problems in theology, sociology, and religion. The attitude of the church toward all the live issues of the day receives full attention. It is a practical help to ministers, theological students, and other religious workers of all denominations. It aims to secure the best contributions from leading thinkers, writers, and preachers of the Christian world.

Its reach is world-wide. Its aim is specific—to give the appreciative and alert pastor, already over-taxed with work, the richest, most highly concentrated and effective fund of information, inspiration and suggestion possible. We aim to bring the individual pastor and preacher into touch with all his co-workers, so that he may be broadened, strengthened, inspired, and upheld in his work by the consensus of the whole clerical profession. Our facilities increase with experience, and hence, it is that *The Homiletic Review*—"ever better and better"——becomes indispensable even to those most eminent in the profession. It surely has, or ought to have, as much claim upon the less favored and successful.

Opinions of Readers and of the Press

"*The Homiletic Review* is greatly improved over what it was a few years ago—excellent as it was then. The editors are certainly abreast of the times, and there is much in the magazine which a minister can in no way afford to skip."—*Zion's Herald*, Boston.

"The very best magazine of its kind for preachers."—*Newell Dwight Hillis, D.D.*

"Sincere congratulations on the freshness and vigor of *The Review*."—*Wm. Elliot Griffis, D.D.*

"*The Homiletic Review* is a real homiletic help for ministers; full of ideas and suggestions."—*The Presbyterian Banner*, Pittsburgh.

"The finest thoughts of the ablest preachers of the present century on the sacred writings are here given in sermonic form."—*The Watchman*, Boston.

"*The Homiletic Review* gleans in many fields, and gathers rich and valuable sheaves that might otherwise be lost. The range of subjects treated has great breadth and variety."—*The Christian Advocate*, New York.

"*The Homiletic Review* has been greatly improved by the changes made in it recently. I especially like the editorial column, which seems to me quite up-to-date and thoroughly sane."—*John Balcom Shaw, D.D.*

"I have been reading (*The Homiletic*) for many years and it seems to me to be occupying a higher plane than ever before, fresher, more vital, more masterly, more stimulating."—*President P. W. Crannell, D.D.*

"*The Homiletic Review* stands at the head of magazines devoted to current religious thought and sermonic literature."—*Christian Intelligencer.*

Our Darlings' A B C Book will prove a blessing and a valuable assistant in teaching Bible lessons to very young children. Each letter of the alphabet is printed in red and is about two inches high. Accompanying each large character is a short verse of poetry descriptive of some interesting Bible theme, and an illustration. There are twenty-six full-page Bible stories told in language easily understood by the little ones between the ages of three and eight years.

The numerals from one to twelve also are given. Each numeral is accompanied by a verse about the life of one of the twelve sons of Joseph, making a twelve-verse poem.

Bound in durable red cloth attractively decorated in black and white. The picture on the covers is reproduced from a photograph. Profusely illustrated.

Twilight Talks With the Children

By Isabel C. Byrum

A book that wins its way into the child's heart. Written in an unconventional style that appeals to its readers. Each chapter is in the form of a story told by a mother to her four children. Each child asks questions as the story-telling progresses, and the mother answers their queries in a delightful manner.

A full-page drawing accompanies and illustrates each chapter. Parents desiring to supply their children with books that will help to inspire them to higher, nobler lives should not overlook this volume. Suitable for children from five to fifteen years of age.

When read by parent and child together, it strengthens the bonds of filial love and thus safeguards the child from evil.

Reading is to the mind what exercise is to the body. As by the one health is preserved, strengthened, and invigorated; by the other virtue (which is the health of the mind) is kept alive, cherished, and confirmed.—Sir R. Steele.

THE PILOT'S VOICE

A Book for Young People

By Isabel C. Byrum

THE THEME OF THE BOOK

Byron, a lad of sixteen, determines to have his own way, to associate with a young man against whom his Christian mother has faithfully warned him. Under the influence of the unprincipled James, Byron heeds less and less his widowed mother, until card-playing and the dance-hall visit are but small evils compared with the stealing, etc., that he is led into.

But Byron's mother does not despair—she prays. Today she lies in her grave; but Byron, having at last heeded the great Pilot's voice, is a useful Christian man—a monument of God's mercy toward the wayward son of a praying mother.

While The Pilot's Voice inspires parents to continue to pray when advice and counsel are no longer heeded, the book is written specially for young persons, warning the wayward, encouraging the penitent, and strengthening the virtuous.

A book with a mission, and yet intensely interesting. Several full-page illustrations. A very attractive and significant cover-design—lettering in gold.

In Nature's Haunts With Youthful Minds

By Wm. A. Bixler

Recommended by educators as well as by parents.

This book answers numerous youthful questions, such as: Where does dew come from? Why does smoke go upward? How is snow formed? What makes wind? What makes the rain-drops? How is lightning formed? What makes the noise like bricks falling when it thunders? What causes the tides in the rivers? What makes the rainbow in the sky? Where do the ice-bergs come from?

No, it's not a question-and-answer book, but it's a book just full of the things children and young people want to know about the world around them. Written in interesting, every-day language that all can understand.

Tells about cyclones, clouds, seeds, trees, flowers, mirage, oil-wells, gas-wells, the moon, the aurora borealis, etc., etc.

Profusely illustrated. Many of the pictures are photographs taken personally by the author. A book much in demand among intelligent young people.

WILLIAM FREEMAN

¶ Despite the phenomenal growth of public libraries within the last few years in America, there has been a wonderful building-up of private libraries—not musty collections of blurry, ancient tomes, but plain, everyday family book-cases full of good books built into the living-rooms of every household in the land. Pride and pleasure in the ownership of good books are American traits.

¶ The Grosset & Dunlap plan of republication of worth-while books at moderate prices has contributed much toward stimulating the growth of these millions of home-libraries. And indirectly there are other home-libraries which this plan has assisted in establishing and enlarging—those of the camps which have become the homes of so many of our boys.

¶ This catalog offers one of the most splendid opportunities to equip that home library with books which have become classics, books upon the war, sound reference books on various subjects, series of children's and young people's books which have been endorsed by every authority, and then a great list of the freshest and cleverest and most enduring of modern fiction ever gathered by one publishing house.

¶ Moderate prices do not mean that these books have been compelled to suffer from the standpoint of workmanship, durability and aesthetic value, for they will be found to be in every way desirable volumes to add to a library.

¶ Wherever books are sold, Grosset & Dunlap publications may be obtained; but where book shops are not available, any book will be sent postpaid on receipt of price by the publishers.

THE GROSSET & DUNLAP LIST OF COPYRIGHT FICTION

The aim of the publishers in compiling this INDEX OF GOOD FICTION has been to furnish the book-lover and the book-buyer with a list of nearly all of the fiction successes of recent years, now available at popular prices. By glancing down the index, it will be noted that all of the world's greatest novelists are represented, in most cases by their most important works, and when the conservativeness in prices, the attractiveness of editions and the wide range of choice are considered, the value of this list will be very apparent, sufficient, indeed, to warrant its preservation. **75 cents, postpaid**

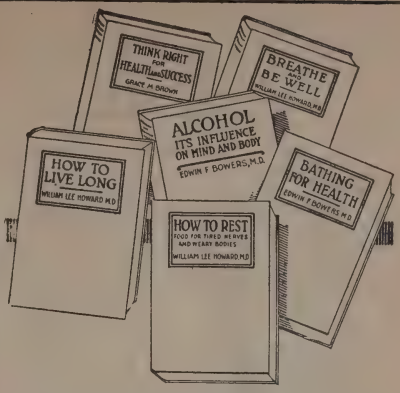
HANDBOOKS OF HEALTH



A Doctor is all right *in a pinch*—but why pay *him* for knowing the things *you* ought to know *yourself*?

You owe it to yourself to be well. Perfect health of mind and body is the one heritage we have a right to demand for ourselves and for the generations to come.

With this in mind, and realizing the earnest strivings of all every-day people, at home and in the camps for that thing called Health, and its companions, Success and Happiness, there is being offered a group of books called HANDBOOKS OF HEALTH, books of fact and sound advice, written by the most up-to-date of authorities, but written so interestingly, so *humanly*, and so simply, that the idea never comes to one that they are "*doctor books.*" **60 cents, postpaid**

HOW TO LIVE LONG
By William Lee Howard, M. D.

Everyone knows that "one man's meat is another man's poison."

Still some solemn authorities (?) would have everybody eat so many ounces of this and never touch that.

Presuming that everyone is interested in common sense—HOW TO LIVE LONG is written by a real authority.

Dr. Howard tells how to store up our youth and lengthen our lives.

It is a matter of individual hygiene, especially mental hygiene, not set rules for living.

BREATHE AND BE WELL
By William Lee Howard, M.D.

It is a marvelously simple story of how easy it is to get the very best out of life by devoting a few minutes a day to proper breathing.

You will develop your body, your mind will become more alert, you will lengthen your life.

Not science, but plain simple rules, which if followed, will give you what all the world is seeking—physical and mental fitness.

BATHING FOR HEALTH, A Simple Way to Physical Fitness
By Edwin F. Bowers, M.D.

One should know the kind of bath one's body needs. Baths can be "big medicine," or they may be dangerous. They can soothe nerves, stop wakefulness, and quiet fretful children. Under right conditions they break up colds and relieve pain and inflammation.

This book tells what a bath is, how it acts, when and how often to take it, and what kinds of baths to employ for the particular things that ail us. It tells how the bath may influence beauty, morality, digestion and nerves.

HOW TO REST, Food for Tired Nerves and Weary Bodies
By William Lee Howard, M.D.

Knowing how to rest while carrying out our daily tasks is the only way to keep the human machine up to its full working capacity.

This common-sense way of preserving health and harmony of brain and nerves will result in a better quality of work and this with that pleasure that health and lasting vigor always give.

Dr. Howard explicitly shows the methods and gives you a simple series of rules to follow and also tells how to instruct and train, rest and feed the children.

ALCOHOL, Its Influence on Mind and Body
By Edwin F. Bowers, M.D.

This book is written in a frank spirit of fairness, by a keen-minded physician, who makes scientific facts as interesting as fiction—while still keeping them scientific he proves an error in the minds of millions of intelligent, well-informed and conscientious people, who, not only deny evil in moderate drinking, but affirm undoubted benefit from it.

No intelligent human being denies the evil in immoderate drinking. Excess smears its black mark over everything it touches—physical, mental or moral—in business or in social life.

THINK RIGHT FOR HEALTH AND SUCCESS
By Grace M. Brown

Thought is the controlling influence of life.

The way we think—the way we picture things affects the body for good or ill.

Right thinking controls in a large measure, our ability to demand and achieve success.

HOME GARDENING

Vegetables and Flowers By Benjamin F. Albaugh

What this book does for the average man and woman is, first to instill an irresistible desire to plant things—both vegetables and flowers—and then to tell in the simplest and most practical manner how to go about doing so. It is frankly for amateurs, but by following the instructions given, the home gardener may easily become a professional, and grow a surprising amount of fresh vegetables from a very small backyard plot. HOME GARDENING is simple, non-technical, easy to understand. Fully illustrated with wrapper in colors. Size, $5\frac{1}{2}$ x $8\frac{1}{4}$ **75 cents. Postpaid.**

Beautiful picture wrapper in colors, colored lining papers and four illustrations

The problem of the parents of today is that of keeping the busy, inquiring minds of their boys occupied with wholesome, vital, and manly things. Only in this way can their boys be kept out of mischief, especially in the vacation season of the year, when the reading of good books becomes a potent method of control. The TOM SLADE BOOKS will fascinate every live boy, and at the same time they will arouse in him ideals of manhood which he will follow all his life. Tom Slade has been found by thousands of boys to be the best playmate in the world, and during the summer holidays he is certain to prove the best companion whom parents can secure for that American boy of theirs. He and his fellows do not talk "as they do in books," but as they talk in camp and on hikes.

1. TOM SLADE, BOY SCOUT
   Tom Slade lived in Barrel Alley. The story of his thrilling scout experiences, how he was gradually changed from the street gangster into a first-class scout, keeps one thrilled to the very end.
2. TOM SLADE AT TEMPLE CAMP; OR, THE WINNING OF THE GOLDEN CROSS.
   In this second story of the adventures of Tom Slade, we find the promise made by his friend, Mary Temple, fulfilled. It is chock full of the spice of woodcraft and adventure.
3. TOM SLADE ON THE RIVER; OR, THE CRUISE OF THE HONOR SCOUT.
   Tom Slade and the Bridgeboro Troop take the memorable and most entertaining cruise which is recounted in this story.
4. TOM SLADE WITH THE COLORS.
   A Scout story with a war flavor. It pictures Tom's pre-military, patriotic activities at home while he was still identified with his scout troop.
5. TOM SLADE ON A TRANSPORT.
   His thrilling experiences on the high seas while bound for "Somewhere in France."
6. TOM SLADE WITH THE BOYS OVER THERE.
   His flight through Alsace-Lorraine after his escape from the German prison camp, wherein his former experience as a scout served him in good stead. We leave him at the threshold of active service at the front.
7. TOM SLADE, MOTOR CYCLE DISPATCH BEARER.
   As a dispatch bearer behind the lines where scout resourcefulness and inventive cleverness are put to the supreme test, and Tom is confronted with the terrible alternative for a soldier—that of obeying orders and delivering the message he has set out to deliver, or that of bearing the more important documents found upon the dead German.
8. TOM SLADE WITH THE FLYING CORPS.
   Tom's cherished dream of scouting and fighting for Uncle Sam in the air is fulfilled. His exploits give him the nickname of the American Eagle.

BOOKS FOR LITTLE FOLKS

SLEEPY-TIME TALES

By Arthur Scott Bailey

Picture wrappers in four colors. Illustrated by Harry L. Smith.

While the youngster eagerly listens to the imaginery escapades of the little animal folks, a foundation, other than that based upon the natural history facts in the stories, is being laid. An Atlas Constructed on Modern Lines

Reduced facsimile of book
Size closed 14¼ x 21 inches

Railroads Given Prominence

Railroads are of utmost importance in these times. For that reason, *each railroad system* on each state map, the maps of Canadian Provinces, Mexico, Cuba, etc., is printed in a separate color, the background of the map bring left uncolored.

The advantages of this feature are obvious to the Merchant and Shipper. Over 300,000 miles of railroads are thus shown. The index, likewise, gives particular attention to the railroads. Railroad stations are listed, and, by a numerical method, the names of the railroads passing through the towns are instantly ascertained.

The Standard Atlas is Most Complete

In this atlas is a new series of large scale maps of each of our states and of each province of Canada, portraying in detail the Commercial Geography of North America, showing all counties, cities and towns with the transportation facilities, railway stations, junction points, etc.

A list of counties and principal cities and towns is printed at the side of the map together with the index references by which the towns may be located. Printed with only the county boundaries tinted, against a white background, the minute detail of the maps is brought out in a very clear manner and the special coloring of railroads mentioned above increases the facility for acquiring information in the shortest possible time. Then, too, any marks or checks made on these maps in routing salesmen or assigning territory are much more distinctly seen than when made on the ordinary old-style colored map.

In addition to the railroads, the **interurban electric lines and water routes,** which are becoming most important factors in transportation, are in individual colors so that they may be traced at a glance—you can follow the route quickly and accurately from start to finish.

The Standard Atlas is printed on heavy paper and is durably bound in cloth or half leather, with side stamps in white and gold.

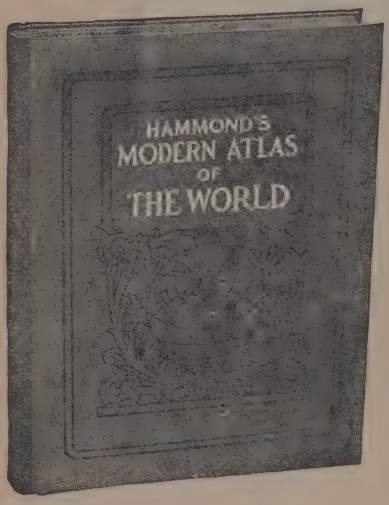
HAMMOND'S
MODERN ATLAS *of* THE WORLD



¶ During the last few years numberless changes, which render an old atlas useless, have been wrought. New towns have sprung up; old cities and towns have grown; thousands of miles of new railroads have been built; history has changed the boundaries of countries, and these with numberless other changes are recorded in this new work. It is down to date in every particular.

This new atlas contains 128 pages of MAPS, beautifully printed in colors, representing every portion of the earth as it is TO-DAY. These plates have been engraved from new drawings, based on the latest surveys, and the publishers believe them to be the most complete and carefully edited series of like size covering the whole earth. The lettering is clear and clean cut throughout, carefully graded in size to convey at a glance relative importance of places. Railroads are shown and named and with very few exceptions, in crowded or densely populated sections, every railroad station and post-office is named.

On the margin of each map is an ALPHABETICALLY ARRANGED INDEX OF COUNTIES (or other minor divisions), CITIES AND TOWNS. A division or place may be instantly located without turning the page. The convenience of such a quick reference index will be readily appreciated.

Another valuable feature of this work is a very complete INDEX OF CITIES AND TOWNS of the United States with POPULATION ACCORDING TO THE LATEST CENSUS. This new index is complete and down to date. Population of Foreign Cities are given according to latest reports.

The size of this work is 10½x13½ inches, printed on high finish paper and durably bound in red cloth, with attractive cover stamping.

Hammond's Handy Atlas of the World

Is the most recent and authoritative, and, therefore, the most reliable atlas of its size published

It contains a new series of ACCURATE AND COMPLETE MAPS, beautifully printed in colors. There are in this collection separate maps of each state, territory, and insular possession of the United States; of each province in Canada; of each country of Europe, and general maps of all other portions of the globe.

In the maps of our states and territories, and of the provinces of Canada, RAILROADS ARE NAMED, and stations are shown, in a very complete manner. These and all other details are brought down to as recent date as in any of the more expensive atlases.

Alphabetically arranged lists of cities give the LATEST POPULATION STATISTICS

The maps in this work are not only new and reliable, but they are legible. Every name is lettered in clean-cut type; no indistinct hand-lettering is used. High-finish paper made expressly for this book is used throughout.

Many, if not most, low-priced atlases are made up of old plates, all but worthless in this era of rapid changes:

OUR PLATES ARE NEW, UP-TO-DATE, AND SUPERIOR IN EVERY RESPECT.

Contains 130 pages. Size, when closed, 6x8 inches.

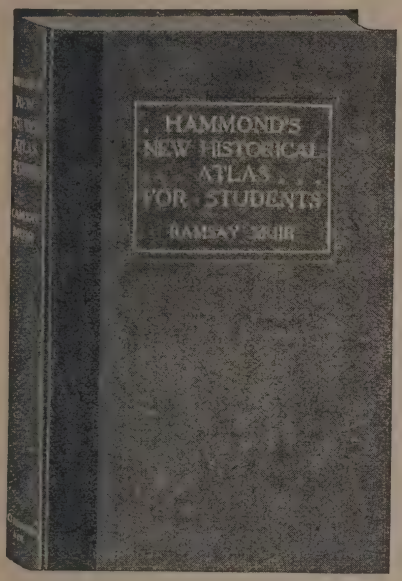
HAMMOND'S NEW
HISTORICAL ATLAS
FOR STUDENTS



The study of Modern History, whether American, English or European, has long been handicapped by the non-existence of a carefully produced historical atlas, covering the whole ground and issued at a price which will place it within the reach of all students. This new atlas, therefore, endeavors to fill this gap. No pains have been spared to achieve this end; every map has been specially drawn and engraved and the entire work has been prepared under the supervision of Ramsay Muir, M.A., Professor of Modern History in the University of Liverpool, England.

This new Historical Atlas numbers in its contents 65 double-page plates, 7¾ x 9½ inches, containing 154 colored maps and diagrams, an introduction of 62 pages, illustrated by 43 maps and plans in black and white and an index of over six thousand names.

SOME OF THE FEATURES WHICH DISTINGUISH THE HAMMOND HISTORICAL ATLAS

¶ Great emphasis is placed upon the **physical basis** of historical geography. A series of physical maps has been included, carefully designed to show the geography of all the principal areas of historical importance. These maps are placed in proximity to groups of other maps of the same area so that the influence of the build of a country upon its history will be more easily made manifest to the student.

¶ Great care has been taken to avoid a confusing multiplicity of names on the maps; only those names which are likely to be useful to the student have been inserted, giving the maps a clear, legible appearance.

¶ The introduction contains a series of comments upon each of the maps in turn, which will be found of great assistance to the teacher. These bring out the influence of geography upon history and the reasons for rapid changes in political geography which has especially marked certain periods of the world's history.

¶ The engraving and printing leave nothing to be desired, the color work being particularly well executed.

¶ Especial attention must be called to the beautiful bindings of the Historical Atlas. Bound in half leather of an attractive green shade, with side and back stamps in gold, the the book presents a strikingly handsome appearance. It is also bound in durable red cloth with gold cover stamps.

Size of the book, closed, 5¾ inches wide, 8¾ inches long, and 1½ inches thick.

Comparative Series of Wall Atlases

There can be no disputing the fact that the most successful means of teaching the rudiments of any subject is by application of the study of cause and effect, but to present graphically the chief facts of Geography by this method has heretofore been an impossibility. Nothing is of greater importance to a student of Geography and nothing is more difficult for him to comprehend than the essential connections between such phenomena as climate, temperature, rainfall, vegetation and relief of the land.

A NEW DEPARTURE

In this new Comparative Series of Wall Atlases, all these facts, for the first time, have been collated and summarized in a convenient form, in which comparison is not only easily effected but is convincingly clear as well. Each wall atlas is a collection of eight maps, uniform in size and covering the same portion of the world but each devoting itself exclusively to the delineation of one great fundamental feature of physical geography as follows:

1. **Relief of Land and Communications**
2. **Political**
3. **Summer Climate**
4. **Winter Climate**
5. **Temperature**
6. **Natural Vegetation**
7. **Economic**
8. **Density of Population**

The size of each map is 43x33 inches and the atlases in the series consist of the following titles:

NORTH AMERICA
SOUTH AMERICA
EUROPE
BRITISH ISLES (see foot-note)
ASIA
AFRICA
AUSTRALASIA
WORLD (see foot-note)

THE FACTS SHOWN

The series deals with all the chief facts of Geography which can be effectively expressed in map form. The Relief of the Land and the Communication Routes which it determines; the Pressure and Winds and the Resulting Rainfall of Summer and of Winter respectively; the Temperatures of Summer and of Winter; the Natural Vegetation which results from the climatic conditions, the chief Agricultural Products which are obtained under the varying climatic conditions; the Mineral Products and the Regions of Industrial Activity of which they are the basis; the Density of Population as an index both to the combined resources and to the relative importance of areas; the Division of the Land into Political Units—these are the subject matter which the maps exhibit.

THE APPEARANCE OF THE MAPS

Details have been omitted and the essential facts only are shown. The colors have been carefully selected so that these necessary facts stand out with remarkable distinctness. In consequence, the maps can be easily read by the whole class and appeal to the eye of the scholar. They are practical teaching aids and not a mass of indistinguishable details suited only for reference purposes.

NEW AUTHENTIC SERIES POCKET MAPS

A reliable collection of POCKET MAPS of the Countries and principal Geographic Divisions of the earth is always in demand, and because of their up-to-dateness, general accuracy, and moderate price the **Authentic Series** of Pocket Maps of the World have enjoyed a popularity exceeded by no other line.

These maps, covering on a large scale every important portion of the civilized globe, are based on the most recent surveys and other reliable data, while the greatest care and precision have been exercised in their engraving and printing. Four distinguishing features mark their preparation:

1. MINUTE DETAIL. Probably no other maps contain this essential feature in such a degree of completeness. The political divisions of countries, states, principalities, provinces, and other subdivisions are shown; all railways are accurately and distinctly delineated; and the principal means of transportation and communication, including roads and submarine telegraph lines, are given.

2. ABSOLUTE CLEARNESS. By means of careful preparation and the use of distinct lettering throughout, all confusion and illegibility have been avoided, so that any desired information can be obtained without the slightest difficulty.

3. LARGE SCALE. The large scale of these maps materially increases their legibility and wealth of information, and especially appeals to tourists and travelers, as well as all others who require full and accurate delineation.

4. DISTINCT COLORING. The boundaries of all political divisions are indicated by light tints, which give the maps a strikingly beautiful appearance, without obliterating any of the place names.

The compactness of these maps in their light blue cloth cases adds to their general attractiveness and utility.

HAMMOND'S

New Combination Large Scale War Maps

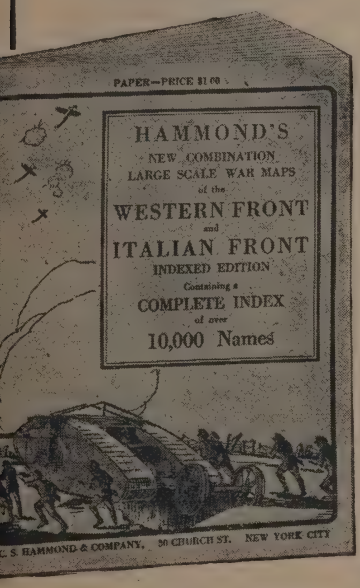
of the

WESTERN FRONT

and

ITALIAN FRONT

These are the largest, most complete, most compact war maps obtainable. Each map measures 28x38 inches, scale, 10 miles to the inch, yet a convenient cover, 5½x7½ inches, contains both maps and an index of 10,000 names. The maps are printed back to back and on linen or bond paper.



THE BATTLE GROUND OF DEMOCRACY

The maps show every town, village, hamlet, naval arsenal, fort, redoubt, battery, aircraft depot, fortified town, mountain pass, wireless station, railway, and canal. Altitudes are expressed in feet. The battle-lines of the furthest German advances and of the present moment are indicated for the purposes of comparison. Forests are shown in green and named.

The index locates the towns by means of reference letters and numbers corresponding with those on the edges of the maps. This list of cities, towns and villages is the most comprehensive one that has been issued since the European war commenced. An idea of the completeness of the maps and index can be gained when one realizes that an average atlas of 100 or more maps contains less than 50,000 names—a comparison most favorable to these new war maps. Other war maps on the market contain less than half as many towns as the Hammond maps.

The map of the Western Front extends north to Antwerp, Belgium; east to Frankfort, Germany; west to Ashford, England; south to Orleans, France. The map of the Italian Front extends north to the German boundary; east beyond Laibach; south to Bologna; west to Milan.

Peary. Thirty-two pages, devoted exclusively to photographic reproductions of all types of aircraft, include seaplanes, hydro-aeroplanes, battleplanes, torpedoplanes, flying boats, military kite balloons, Zeppelins, dirigibles and "Blimps."
